

CONFIDENTIAL: LEGAL CASE SUMMARY (1-Pager)

Complainant: John R. Fouts, MBA

Status: Federal Whistleblower / Disabled Pro Se Litigant

Email: icreateupwardspirals@gmail.com

Phone: 502.956.0052 (Text Only – ADA)

Overview:

John R. Fouts is a federal whistleblower and disabled parent engaged in high-stakes litigation involving systemic retaliation, unlawful displacement, and obstruction of protected civil and constitutional rights. Multiple federal cases have been improperly closed, transferred, or ignored by courts despite notarized affidavits, submitted emergency motions, and supporting dockets indicating fraud, judicial bias, and administrative sabotage.

Core Legal Issues:

- **False Claims Act Violations** – Misuse of federal funds in housing, education, and medical systems
- **ADA, Section 504, and Rehabilitation Act** – Refusal to accommodate documented disability status, unlawful housing denial, and medical abandonment
- **RICO (Racketeer Influenced and Corrupt Organizations Act)** – Multi-entity coordination in suppressing rights and evidence tampering
- **Color of Law Violations (42 U.S.C. §1983 & §1985)** – Judicial misconduct, misprision of felony, and obstruction
- **Obstruction of Justice** – Documented refusal to docket filings, deny emergency requests, and suppress evidence

Critical Dockets for Review:

- **3:25-cv-00033-BJB-RSE (WDKY)** – Improperly dismissed without notice; judicial complaint active
- **25-5144 (6th Cir. Mandamus)** – Filed 2025-02-25; still no judge assigned
- **25-5155 (6th Cir. Interlocutory Appeal)** – Dismissed for lack of jurisdiction despite pending motions
- **1:25-cv-00884 (D.D.C.)** – Wrongfully transferred to WDKY; now listed as sealed or inaccessible
- **3:25-cv-204P / 2025CV00204 (WDKY)** – Associated with above transfer; PACER shows no filings
- **3:24-cv-09325-AMO (NDCA)** – Original case; closed unlawfully, fueling Ninth Circuit judicial complaint

Medical / Human Rights Context:

- Diagnosed with progressive post-viral illness, CFS/ME, severe autonomic dysfunction, and specific antibody deficiency (SAD)
- Confirmed FDG-PET scan showing cerebral hypometabolism, consistent with neurological energy failure and mitochondrial dysfunction
- COMT Met/Met genotype resulting in paradoxical need for elevated dopamine levels
- Small Fiber Neuropathy and Beta-Adrenergic Receptor Mutation impacting vascular tone and catecholamine response
- Copper Deficiency requiring lifelong infusion therapy due to impaired catecholamine synthesis and autonomic imbalance
- Ongoing medical obstruction, including denied medications and unsafe stimulant underdosage despite neurological and genetic biomarkers
- Forced into homelessness despite legal protections under ADA, VAWA, 504, and Housing Choice Voucher program

Status:

- Two notarized affidavits on file documenting war crimes, systemic medical abuse, and civil rights violations
- Emergency motion to reopen and vacate WDKY case submitted 2025-05-15 and docketed as Entry #99
- Seeking immediate legal representation or referral to attorney/law firm capable of engaging whistleblower retaliation, constitutional violations, and federal-level civil rights litigation

Urgent Need:

Legal intervention, protective remedy, and coordinated litigation support before further irreversible harm occurs to John R. Fouts or his child.

For full documentation, affidavits, dockets, or supporting materials, contact Mr. Fouts directly or request secure digital access.
